

HOW I GOT INTO THIS WORK

2nd installment, for July 2009.

Sinopsis: Joey, my yung tenant, had askd me how I got into the work of communicating with the unseen world. I told him how wen I was in college I began to rebel agenst the narroness of the tipical religius mentality - especialy their reluctance to admit that sumone mite receev a valid gift of proffecy. I determind to aply for that gift - a gift that the apossle Paul encourraged cristians to seek. And I began to make progress.

And at the same time I was dreaming. Now, I kno that menny times dreams wer uzed in the Bible to giv gidance to thoze in the Lite. For example think of the 3 wise men wen they came to seek the chyld Jesus. Herod encourraged them to look for him further, and he sent them off and sed he wanted to cum & wurship the chyld, so they shud cum bak & tel him ware they found him.

Wise Men by Sylvia Holland

Now they wer from out of the cuntry, & they didnt kno enny better & after they found Jesus in Bethlehem they wer all set to go bak & tel Herod ware he was.

But, they had a dream. They all 3 had the same dream! And in that dream, wether by an angel or another way, they wer wornd not to go bak to King Herod, becaus he was all set to wipe out the chyld Jesus. Herod wasnt about to let ennyone gro up to take his place. And so the 3 wize men, [who wer astrologers], knew they wer not to go bak to Herod, but that they shud take their things and go on their way and get out of thare; and that they did!

That's an example, and thare ar hundreds of other places in the Bible ware people got gidance from their dreams. Thare also places in the Bible that told about angels, wich I mite mention, and wich was one of the reazons wy I rebelld agenst ignoring angels. For example Jacob sed that an angel came to vizit him and he ressed with him. He was campd by a stream with his large family and entourage of servants. One eevning a man came to him; however he was not enny of his family or of his group. He was a stranger, and he jumpd on Jacob an started to ressed with him, and Jacog knew that this man was sumbody strange. He maybe saw a lite, a luminus glo about this man. He thaut that this man came from God, and he faut and ressed and they wer pritty much eevenly machd.

In the morning they wer boath acting pritty exausted, and the stranger was leaving; but Jacob grabd onto him and sed, "No, I'm not going to let u go until u bless me." And so the angel sed "Alrite, I'll bless u." He tuchd Jacob on the thigh, as if to say "In this way u wil kno that I am no dream."

After that he left, and Jacob lay down and slept. Wen he awoke it was no dream. He stil had that pain in his thigh, and it continued to bother him for the rest of his life. However he prosperd graitly after that, so aparently the blessing did actualy cum thru for him.

Jacob & the Angel by Theo So we kno that angels came to vizeit thoze in the Bible. As I was thinking about this I thaut, "Today the chuirches ar shutting their mynds to angeles and to hearing the voice of God. They seem to be afraid that it is of Satan, but I'm not afraid. I'm going to go ahead and du it."

So here I was, cultivating the powrs of my mynd, and also keeping open to the possibility of being in contact with thoze of other planes. I put my particcular atention on dreams becauz I was havving a lot of dreams and I felt they wer gided. Mor and mor I thaut that perhaps sumone was trying to reach me thru my dreams.

For a year and a haf I recorded all my dreams. And I rote them all down and lernd to interpret them. I studdyd Elsie Sechrist's dream book, wich I found helpful. I also found that thare was a sort of simbolic language develloping between myself and whoever it was that was reaching thru to me. I wud wake up in the morning and kno the meaning of the dream I had just had. It seemd to be cumming thru just as if I wer reading sumone else's mynd. I was getting gidance. And I began to ask questions.
